

ASHINGTON LEISURE CENTRE

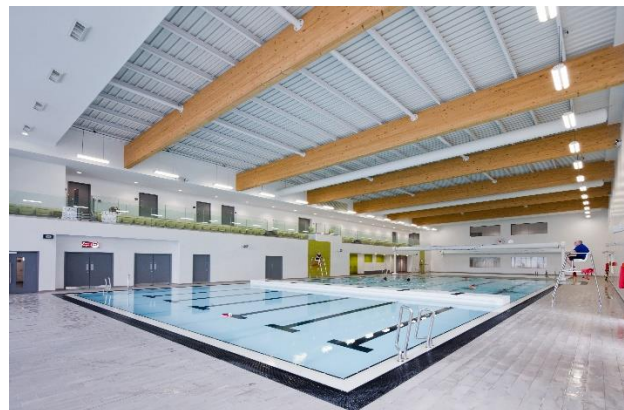

The £21M project involved the construction of a modern community level Leisure centre in the centre of Ashington as a comprehensive regeneration programme of Ashington Town Centre. The centre includes a six-lane 25-metre swimming pool and studio pool, gym facilities, spa, 6 court multi-function sports hall, studio space for classes and activities and a dedicated cycle spinning studio. The Centre also integrates a high-quality library a soft play and a café all together in one convenient and modern location, which provided a calm and relaxing environment to read, learn or meet friends. The building's design included a number of artistic features including feature windows inspired by the Pitmen Painters and artist feature wall covering the Coal mining heritage. This new, replacement centre opened in 2015.

NEWCASTLE UNIVERSITY SPORTS CENTRE

The £16.2M sports accommodation includes squash courts, multipurpose studios, a fitness gym and an eight-court sports hall. A series of spectator viewing areas are provided across the building, with a large break out space providing the main social hub at the building's entrance. The four-storey centre, opened in 2019, provides an integrated leisure and learning facility for the university. The academic accommodation includes performance, physiology and analysis laboratories, a gait track, body pod and an environmental analysis suite.
